

Weather Workshop IV

The summer season in eastern Washington and northern Idaho can present a number of weather hazards for the aviation community. These hazards can range from clear air turbulence, wildfire smoke, blowing dust and thunderstorms, all of which can be extremely problematic to the aviation community. This presentation will discuss these challenges with an emphasis on outflow boundaries, squall lines and the rare Haboob events.

Directions: Western Washington Fairgrounds are located in Puyallup, just off Hwy 512 at the corner of S. Meridian and 9th Avenue SW. Enter fairgrounds through the Blue Gate. This seminar will be held in Room E, North Foyer.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
